About Touchstone

A global leader in innovative surgical stapling technology

Founded in 2003, Touchstone International Medical Science Co., Ltd. ("Touchstone") was listed on the Shanghai Stock Exchange in September 2020 (Stock code: 688013). Touchstone specializes in the development of advanced and innovative surgical staplers that enhance clinical performance, minimize risk and improve patient outcomes. The company bridges science with technology and design to deliver patient-centric surgical solutions for the operating room. Touchstone's product portfolio includes Intraluminal Staplers, Endoscopic Linear Cutters and Reloads, Linear Cutters and Reloads, Auto Purse String Clamps, and Linear Staplers and Reloads. Its products are used worldwide in both laparoscopic and open surgery, covering Thoracic, Gastrointestinal, Hepatobiliary, Splenic and Pancreatic, General and Urology procedures.

1st Public Listed Stapling Company (CN)	60+ Countries & Territories	1420+ Patents Granted	560k+ Patients Served
